Salt Lake City, Utah 84180-1203

Dear Dr. Nielson:

Your letter of April 12, 1989 has been forwarded to me for response.

I do not fully understand the content of this letter. On September 13, 1988, Mr. Lowell P. Braxton of your office sent me a letter which approved Lone Star's reclamation plan for the old Portland Cement Company of Utah mining site. This site is known as Parley's Canyon Quarry and Plant, DOE/035/003. Do the new regulations, which were effective December 1, 1988, somehow affect the reclamation plan for the Parley's Canyon facility? This plan is currently being executed so I have interest in a quick response to this question.

Your letter also refers to a file number of DOE/035/004 which is allegedly a mining operation of Lone Star in Salt Lake County, Utah. I am unfamiliar with another mining operation in Salt Lake County. Will you please verify this designation and advise me of the specific operation that is involved?

Lone Star has a temporarily curtailed mining operation in Toelle County for which no notification of the new regulations has been received. Limestone was last produced about December 1987. It appears that this operation will be affected by the new regulations. Is my conclusion correct?

In accordance with your instructions, I am enclosing herewith a signed copy of your letter of April 12, 1989. Unfortunately,

NO

Mix-up with previous owner of quarry. Lone Star has only 1 in Salt Lake County!
YES

Dr. Dianne R. Niel 1

your letter was received too late to schedule attendance at a convenient workshop.

Very truly yours,

A handwritten signature in cursive script, appearing to read "Walter L. Greer".
